EMPLOYMENT

2020 January – 2021 April **OfficeSupply.com**, Madison, WI

- Built software tools (**PHP/Symfony**) for our marketing and customer service
- Maintained legacy, homegrown e-commerce store deployed on AWS
- Adapted feed consumers for daily receipt of EDI, prices, stock (**Node.js, PHP**)
- Collaborated with front-end designers
- Wrote my own tests
- Functional testing of other developers' pull requests

2017 December – 2019 October **Scooter Software**, Madison, WI

- Filed QA bug reports of our product, *Beyond Compare* diff tool
- Client facing liaison for first level of bug response
- Wrote scripts to run file syncs (**Linux BASH, WindowsOS**)
- Wrote social media posts and edited how-to videos

2006-2017 **New York City Public Schools, Madison East High School, Hunter College CUNY**

- Taught C language to AP Computer Science Principles students
- Taught Perl language to college students

EDUCATION

Masters of Science: Chemistry, The Ohio State University

Bachelors of Science: Environmental Science, Oakland University

HOBBIES

Outdoor anything, winter or summer. Facilitating, speaking, leading workshops

OTHER

My teaching skills are an asset in connecting engineering teams and liaising with clients.
